

FTLA Curriculum Objectives

- 1.** FTLA students will learn to utilize and improve their skills with the latest technology in order to produce quality work over the course of their enrollment with FTLA.
- 2.** FTLA students will apply their technological skills through job development and education in order to advance in their chosen field.
- 3.** FTLA students will meet project deadlines given by their instructor and review materials with peers in order to establish current enrollment with FTLA.
- 4.** FTLA students will participate in Webinars so that they may expand their networks with peers, instructors, and future colleges.
- 5.** FTLA students will participate in mock interviews with FTLA panels in order to improve public speaking and communication skills that will further assist with their advancement in the workforce and collegiate atmosphere.
- 6.** FTLA students will demonstrate proper etiquette by showing good characteristics and sportsmanship in and outside school.
- 7.** FTLA students will meet all requirements from school such as (but not limited to): grades, citizenship, senior portfolios, organizations, sports, and community services in order to maintain eligibility for college and FTLA.
- 8.** FTLA students will participate in regional and sectional competitive events to demonstrate their overall skills as they progress and transition into college.
- 9.** FTLA students will demonstrate their reading and writing abilities by completing essays and other writing works that display proper structure, extensive vocabulary, and organization in order to prepare for the college writing curriculum and placement.
- 10.** FTLA Students will graduate from high school and FTLA with advanced skills and continue developing their abilities and knowledge as they progress in college and into the workforce as productive members of society.
